WHO WE ARE

PROFILE & TIMELINE

Q-Park is a leading off-street parking infrastructure owner and operator with well-managed commercial parking facilities across seven western European countries. We operate off-street parking spaces we own, have under concession or with long-term lease contracts from public and private landlords. We focus on off-street purpose-built parking facilities at strategic locations.

We operate more than 3,600 parking facilities comprising over 706,000 parking spaces in the Netherlands, Germany, France, Belgium, United Kingdom, Ireland and Denmark. Based on publicly available industry data for our competitors, we estimate that we are a top three player, based on the estimated off-street revenues, in all the countries in which we operate.

- We are present in over 320 cities.
- We provide a leading EV charging point offering with over 4,000 charging points.
- We have a 25-year track record of consistent revenue growth with a strong rebound post-Covid.

Q-Park market position

Based on (estimated) off-street revenues.

We demonstrate that effective regulated and paid parking combined with smart tariff plans, pre-booking propositions, combined with digital access and payment services make an economic and sustainable contribution to cities and society, positively impacting how people enjoy their urban visit, journey, shopping, commute or residence. We have consistently secured long-term contracts and built a portfolio of prime parking locations, including multifunctional parking facilities near inner-city areas, public transport interchanges, airports and hospitals. HOW WE ARE DIFFERENT

WHO WE ARE

Within our focus area '**Urban liveability**' we have listed our efforts on renewable energy procurement, production and storage, supporting Europe's energy transition. This means moving away from fossil fuels to greater use of renewable energy, thereby reducing greenhouse gas emissions.

Our focus area 'Sustainable mobility solutions' demonstrates our ambition to play our part in Europe's mobility transition. Firstly, because our mobility hubs, parking facilities (PFs) and EV charging points are an essential part of a sustainable urban mobility infrastructure. And secondly, because we offer a variety of alternative modes of transportation in or close by our PFs through substantial partnerships with public transport providers, micromobility sharing/rental providers and car sharing/rental providers.

And with our focus on 'Seamless parking services' we ensure that our digitalisation and innovation efforts are geared towards a seamless parking experience for our customers. Providing digital access and payment services, via our tools or payment services of our partners.

A strong sense of corporate social responsibility (CSR) is embedded in everything that Q-Park does as a company. It underpins every major management decision, every new project, and every engagement we have with our community of users. It's part of our Quintessence, which is how we bring together all of our ideas about regulated and paid parking, and about how we work with our partners and stakeholders to contribute to the quality of life in our cities.

Quintessence

Cities are the undisputable engines of Europe – and these engines are increasingly becoming choked. Regulated and paid parking are therefore logical choices for cities faced with the following five challenges: Mobility – Facility – Society – Economy – Environment.

The Q-Park Quintessence is about regulated and paid parking as a solution for these five urban challenges as it is a particularly effective instrument for influencing mobility and keeping the urban engine from ticking over.

Quintessence – literally - fifth essence, the idea.

Our Quintessence is to guide those who are interested along the way of understanding 'the logic of regulated and paid parking'. As a mnemonic, Quintessence is illustrated as a five point guiding star, where each point in itself is a good reason to regulate or pay for parking.

Quintessence - The logic of regulated and paid parking
